

Litigation & Disputes Resolution

Staffed by a team of seasoned practitioners, our active litigation department has decades of experience in all aspects of commercial and general litigation and alternative disputes resolution, including arbitration, mediation and adjudication. The firm's philosophy is always to act in our clients' best interests, promoting the best strategy to resolve disputes to our clients' satisfaction. We achieve this through amicable settlement, mediation or arbitration as much as through action in the courts. We never litigate for the sake of it. Our team offers clients insightful analysis of each case and we proactively anticipate and advise on other issues that may arise during the resolution process. Our vigilant file and case management system, supported by regular reporting and checks and balances, ensures that deadlines are always met. We put an emphasis on quality and cost efficiency in all our services.
